

Profine ZERO Professional Reverse Osmosis Filter System

The Profine Zero Professional Water Filtration System is simple to use, technologically- advanced and supercompact, bringing you better-tasting water.

With delicious, filtered water, you can help to eliminate plastic and glass bottle waste once and for all.

Suitable for most kitchen layouts and, thanks to its reduced size, can be installed in small spaces and function even without electricity. Even better news, you only need to replace the filters once every 12 months. With triple-filtration technology, eliminates turbidity, residues and suspended particles. Say hello to cleaner, better-tasting water, perfect for drinking and cooking.

Features

4-Stage Ultimate Filtration

removes sand, dust, bacteria, scale, viruses, chlorine, heavy metals, dissolved salt, taste and odour.

Quiet and Compact

Minimal noise and space-saving design means you'll barely know it's there.

Non-Electric

No need for power or energy consumption.

Specifications
